## Frequently Asked Questions

We do not offer phone support for domain and email services. Our [browsable knowledge base](#) is filled with image guides and answers to common customer questions.

We recommend that you wait until your company is formed to select your free domain. This is just in case the company name you applied for is not available and you need to change it to something else.

The package includes 1 domain name and 1 email address. You can upgrade to add more email users at any time.

It will take approximately 24 hours for your domain to become active after purchase.
